Hi, my name is Ann Gonda. We are renting the house at 658 Koski. We moved in about 4 weeks ago and started letting our kitty outside about a week ago. She was staying very close to the house and getting her bearings. Three days ago she was spooked by something, as well as the deer, and I could not find her to put her in the house before I went to work. That evening our neighbor JD found her in their yard with a cut lip and unfortunately she ran off when JD's dogs were let out. She was in their tree that night. She was not far from home when JD found her, but I do not know if she is disoriented as to where home is or is hiding because she is injured and scared. Would it be possible to send out a neighborhood email informing the neighborhood that we are on the lookout for her? She is a short haired brown tabby she is fairly tall and skinny. She is friendly, more so to women than men, but may be more on guard in her current state. She loves tuna and that is how we lure her in at times when she is having too much fun outside. We have 4 kids who have been helping everyday, walking the neighborhood looking and calling for her. She is a good hunter, but I think her injury may have been a bad first encounter with a squirrel. All of the forest animals are new to her. Thank you for any help.
